September 8, 1986

Dear Publisher:

Enclosed is a royalty check and statement based on our microform license agreement with you. You will notice that this check represents the combined sales of microform copies of your publication(s) in one or more of our microform collection products: Business Collection^{tm}, Magazine Collection^{tm}, and TOM (Text On Microform)^{tm}. Also, notice that this check covers the combined sales periods of August-December, 1985 and January-June, 1986.

For each Collection product listed on your statement, we have provided you with a title by title breakdown of how the 1985, 1986 and total royalty amounts were calculated.

The "Cost Basis" column represents each title's prorated share of IAC's net receipts on each sale of that particular collection product.

The "Royalty Percent" column represents the percentage of the cost basis that is set aside for the royalty pool for each subscription sold. IAC's royalty percentages are equal to or higher than those typically paid by any other company in the field.

The 1985 and 1986 "Subs" columns represent the total number of subscriptions to the given collection that contain the titles listed and that were sold during the periods noted.

The 1985 and 1986 amounts columns are calculated by multiplying the Cost Basis x Royalty Percent x Number of Subscriptions for each period.

As you are aware, IAC is actively engaged in developing products for the library reference market that are conceptually innovative. These products represent complete reference systems which include the delivery of full text information in combination with well-known IAC indexes. While this development has been difficult and time consuming, the growing acceptance of our integrated concept in the market place has been gratifying.

During this exciting period, it has been our privilege to have you as a publishing partner. We are very thankful for this opportunity, and we are pleased, at last, to be able to send you this royalty payment representing the fruits of our labor.

As part of our ongoing development process, we have just finished re-designing and upgrading the computer database which we use to keep track of and pay royalties. From now on, we will be sending you quarterly payments within 60 days after the close of each quarter. Your next royalty payment covering third quarter, 1986, will be mailed in December.

If you have any questions about the enclosed statement, please do not hesitate to call Paula Scallan in our Rights and Permissions Department at (415) 591-2333.

Sincerely,

Morris Goldstein,
President
